

*...for all things come of thee, and
of thine own have we given thee.*

1 CHRONICLES 29:14

OUR ULTIMATE STEWARDSHIP GOALS...

are to have all of our parish households pledge, and to have all those who pledge make a commitment to increase their percentage of proportional giving. Our parish leadership will continue to work diligently toward the realization of these goals.

8 Steps to Proportional Giving

1. Give thanks to God for all you have received. Pray that your relationship with God may deepen and broaden so that your life may be grounded in the never-failing love of God.
2. Deliberately and prayerfully develop your long-term objective for “giving back” a share of your income to the Church and to other charities.
3. Define “income”— it may be either pre-tax or post-tax. The important thing is to develop a measure you are comfortable with and stick with it.
4. Estimate your current year giving and actual percentage of income.
5. Select your target percentages for next year (helping you move closer to ideal long-term giving-back objectives).
6. Calculate or estimate your income for next year, and apply your target percentages.
7. Fill out your enclosed pledge card with your designated pledge amount.
8. Mail your pledge card or bring to the church in the enclosed envelope on Sunday, October 17.
